PROFILE:

Computer Science Student|

- Second-year Computer Science student with a strong interest in programming, software development, and technology. Enjoys learning new technologies and building practical projects. Motivated to gain hands-on experience through hackathons, collaborative projects, and real-world problem solving.

TECHNICAL SKILLS :

- Programming: C, Python, JavaScript, Java.
- Development: Git, GitHub
- Currently developing: JavaScript and problem-solving skills

PROJETS :

1__Student Management System — *C*

- Developed a student management system as a programming project.
- Implemented functionality for managing student information.
- Practiced programming fundamentals, data structures, functions, and problem solving.
- Published the project on GitHub.

GitHub: https://github.com/csengineer2397/Student-Management-System

2__CampusHub (Student Web Platform) --- *HTML/ CSS/ JavaScript*

- Developed a wed platform that allows students to find and create study groups, discover and join campus events, and share learning resources.
- Implemented interactive features using JavaScript and browser LocalStorage to save student-created data.
- Published the project on GitHub.

GitHub: https://github.com/csengineer2397/CampusHub

INTERESTS :

- Computer Science
- Software Development
- Programming.
- Hackathons and collaborative projects.
